Guidelines for submitting Lab Assignments

The lab assignment has to be completed and uploaded in TEAMS during the lab hour itself.

1. You should write and execute the SQL statements in the query editor.
2. Create a word document and you may give the same name as lab week number (eg: Lab-1.doc).
3. Write the question number in doc and copy-paste the corresponding queries from PostgreSQL against question number.
4. Paste the screen shot of output of each program below its corresponding query.
5. Give the author information name, roll no, batch at the beginning of the doc.
6. DO NOT COPY assignments from friends. It will be subjected to plagiarism check. In any case of malpractice, you will be given zero marks.
